

## Identifying Air Quality Values and Monitoring Needs

### Examples of Forest Level Plans:

*Great Bear Wilderness, Flathead National Forest -  
Wilderness Air Quality Value (WAQV) Class 2 Monitoring Plan  
- new example with recommended template  
Air Quality Monitoring Toolbox, Section II. C. 1.*

*White River National Forest Air Resource Management Plan.  
([http://www.fs.fed.us/air/documents/wht\\_riv.pdf](http://www.fs.fed.us/air/documents/wht_riv.pdf))*

*High Unitas Air Quality Related Values Action Plan  
([http://www.fs.fed.us/air/documents/hu\\_AQRV.pdf](http://www.fs.fed.us/air/documents/hu_AQRV.pdf))*

*Air Quality Monitoring on the Tongass National Forest: Methods and  
Baselines Using Lichens, Forest Service, Alaska Region, R10-TB-46,  
September 1994.*

**Example language that can be used to describe the interplay between various regulations, air quality and wilderness can be found in Section I Overview of this toolbox.**
