When Nature Calls.....How will you Answer?

- **Find a secluded place at least 200 feet from lakes, streams, camp** (prevent water contamination)
- **Using your trowel, dig a hole 6-8 inches deep** (micro organisms live here)
- **Fill in the hole when you are done** (to help start the breakdown process)
- **Remember to pack out your toilet paper** (don't leave an unsightly mess)
- **Naturalize the site with twigs, pine needles or rocks** (make it look like you were never there)
- **Wash your hands** (to prevent the spread of disease)
