

Fish and Wildlife Management

Examples of Plans and Analysis Tools

1) Montana Fish Wildlife and Parks Reference Manual – Chapters II and III.

<http://fwp.state.mt.us/habitat/wilderness.html>

This manual contains useful templates, examples, and references including:

- Relevant laws
- Agency management guidelines and agreements
- Management Plans and Frameworks for several wilderness areas in Montana including the: *Fish, Wildlife and Habitat Management Framework for the Bob Marshall Wilderness Complex*

2) Minimum Requirement Decision Guide (MRDG)

<http://www.wilderness.net/mrdg/>

Provides interagency guidelines for the evaluation of projects proposed for wilderness. This guide is typically used for issues related to motorized equipment, mechanical transport, landing of aircraft, motor vehicles, structures, and installations, but it can be used for any management action being considered for implementation in wilderness.
