Replacing Customized Message Tiles

IMPORTANT: Changes to the message tiles should only be made in the master InDesign files. DO NOT make changes to the tiles once they have been placed in the overall background layout. This will avoid multiple versions being used.

Step 1. Open the message tile in InDesign
- Open the master .indd file of the message tile in question and make any changes (such as including the appropriate CFR). Relink any missing photos. Save.
- Keep this file open (ex. Msg_4_Stick_100%_WEST.indd).

Step 2. Copy and paste into the overall InDesign background layout
- Open the .indd file of the layout size you want to customize (ex. Westside_40x42_100%).
- Go back to the message tile file ((ex. Msg_4_Stick_100%_WEST.indd —which should still be open according to Step 1). Using the selection tool, select all items. Group. Copy.
- Now make the background layout file active (ex. Westside_40x42_100%). Paste.
- Move the tile into place.

Camping?

- Camp on durable surfaces: rock, gravel, dry grasses, or snow.
- Camp at least 200 feet from lakes and streams.
- In popular areas, use existing campsites.
- In pristine areas, disperse use.

Minimize Fire Impacts

- Whenever possible, use a lightweight cookstove.
- If building an open fire, use a fire blanket or pan, or use an established fire ring.

Be Sanitary

- Pack out all leftover food, trash, toilet paper, and hygiene products.
- Deposit solid human waste in a cathole or carry it out with a blue bag system.
- Catholes should be:
  - At least 200 feet from water, camp, and trails
  - 6 to 8 inches deep
  - Covered and disguised when finished
